PREFACE

This thirty-second annual volume of Industrial Arts Index is a cumulation of the twelve monthly numbers published from December 1943 thru November 1944. The only additions to the current numbers are the *See also* references, supplementing those in the June cumulation.

No additions were made in 1944 to the list of periodicals indexed, since the list had already been increased by twenty-three additions in 1941 and 1943. It was hoped too that the indexing of the French and German magazines, interrupted by the war, might be resumed in this volume. These periodicals are *Die Chemie, Chimie et Industrie, Génie Civil, Stahl und Eisen, Zeitschrift des Vereines Deutscher Ingenieure*. They will be indexed later.

Two insurance magazines will be added in 1945, *Rough Notes* and *Life Insurance Courant*, to replace *Insurance Field*. Two periodicals were dropped in 1944, *American Photography*, indexed in Readers' Guide, and *Instruments*, because its publishers did not wish the indexing continued.

The staff of the Index has suffered the loss of Ruth Berkowitz, whose efficient and faithful work and never failing amiability are now the good fortune of the Straubenmuller Textile High School. Fortunately it was possible to secure Mrs. Lucille Craumer as an addition to the Index staff.
